

Certified EMG Technician, Ambulatory Care - EMG - 1 position	Posting #: 46667
Ambulatory Care - EMG	Posting Date: November 16, 2021
Parkwood Institute Main - London, ON	Submission Deadline: December 06, 2021
Full Time	Stacy Kearns, Human Resources
OPSEU Paramed	

The EMG Technician will perform nerve conduction studies and assist physiatrists in the performance of EMG studies. The technician will participate in conferences, technical meetings and teaching sessions.

Please note that consideration may be given to candidates willing to work towards successful completion of the BRETC examination in the absence of applicants who fully meet the essential qualifications in terms of experience.

Those with knowledge of anatomy and neurophysiology are encouraged to apply as mentorship, training, and capacity building will be supported collaboratively by EMG Technicians and physiatrists.

Essential Qualifications

- College Diploma in a Biological Science area
- Knowledge of electrodiagnostic equipment
- Knowledge of a Safety Culture in a Health Care Setting in compliance with the OHSA
- Familiarity with nerve conduction study (lower and upper extremities) techniques and assisting with needle EMG studies
- Strong communication skills to effectively liaise with internal and external customers
- Ability to work independently with minimal supervision
- Excellent interpersonal skills
- Demonstrated organizational skills to meet high volume needs

Preferred Qualifications

- Proficiency in French would be an asset
- University degree in Biological Sciences, i.e. Physiology, Anatomy, Kinesiology
- Member of the Association of Electromyography Technologists of Canada (A.E.T.C.)
- Registered through the Board of Registration for Electromyography Technologists of Canada (B.R.E.T.C.)
- Computer competency
- Experience in related research

Teaching and Research

- St. Joseph's Health Care London through its affiliation with Western University and Fanshawe College is a leading research and teaching hospital. As an employee of St. Joseph's you will be expected to engage in role related teaching and research activities in addition to any of your clinical duties

Immunization Requirements

- Provide documentation you have received two doses of the Covid-19 vaccine and a written commitment to follow any future Public Health recommendations and St. Joseph's Health Care London policies and processes related to Covid

management in the workplace.

- Provide vaccination records or proof of immunity against measles, mumps, rubella and varicella (chicken pox)
- Provide documentation of the Tuberculosis skin testing

Your interest in this opportunity is appreciated. Only those under consideration will be contacted.
