

Systems Analyst, Food & Nutrition Services - 1 position  
Food & Nutrition Services  
Mount Hope Centre for Long Term Care - London, ON  
Temporary Full Time  
Non-Union

Posting #: 52196  
Posting Date: December 08, 2023  
Submission Deadline: December 14, 2023  
Andrew Harriman-Duke, Human Resources

Temporary position, anticipated to extend until July 5, 2024, subject to the availability of work

Building on more than 130 years of care and compassion, today's St. Joseph's continues to make a difference in health care with distinct roles in acute and ambulatory care, specialized care of the elderly, long-term care, mental health care and rehabilitation services. With more than 10 locations, St. Joseph's offers health care professionals both the opportunity to specialize and to attain a variety of experiences in leading programs across a spectrum of services.

As a teaching centre, St. Joseph's fosters excellence through support for learning, research use in practice, and generation of new knowledge. Our shared leadership environment is our hallmark. Based on principles of accountability, equity, partnership and ownership, this environment enables staff to be accountable for making decisions. We offer flexibility and support to achieve balance between work and home along with programs to support our commitment to a safe and satisfying workplace.

The Systems Analyst is a member of the Food and Nutrition Services Team, responsible for supporting a number of users throughout our multiple sites who use the various applications of the CBORD system. We are seeking a motivated individual who has a passion for providing solutions. The successful candidate will have system administrative access to the CBORD system and will be responsible for maintaining accurate information within the systems, investigating and analyzing support issues in accordance to organizational standards. The Systems Analyst will also manage internal documentation, provide end user training, and work closely with other team members, staff and vendors.

Reporting to the Coordinator of Food and Nutrition Services, the successful candidate will ensure that quality service is provided to all stakeholders while championing effective communication and support to the department of Food and Nutrition Services.

#### Essential Qualifications

- Community college diploma in food service management or equivalent
- Membership with the Canadian Society of Nutrition Management
- CBORD system experience
- Familiarity with therapeutic diet modification for clients and patients in a healthcare setting
- Demonstrated computer skills with intermediate level knowledge of Word and Excel
- Highly developed organizational, analytical, and project management skills
- Superior customer service skills with demonstrated diplomacy and tact
- Adept at building positive relationships and an ability to work both independently as well as within a team setting
- Consensus-building and conflict resolution skills
- Ability to troubleshoot and provide solutions for systems issues of a moderate to complex scope
- Superior interpersonal and communication skills
- Knowledge of a Safety Culture in a Health Care Setting in compliance with the OHSA

#### Preferred Qualifications

- Health Science related degree

- Proficiency in French would be an asset
- Knowledge of Ministry of Health and Long-Term Care Compliance Standards
- Experience working in a mental health, long term care or rehabilitation
- Experience working in Food Service, understanding of nutritional analyses, the fundamentals of menu planning, and work flow from a clinical and an operational perspective

#### Teaching and Research

- St. Joseph's Health Care London through its affiliation with Western University and Fanshawe College is a leading research and teaching hospital. As an employee of St. Joseph's you will be expected to engage in role related teaching and research activities in addition to any of your clinical duties

#### Immunization Requirements

- Provide documentation you have received three doses of the Covid-19 vaccine (primary series, boosters and/or XBB) OR one dose of XBB vaccine at least 14 days prior to the start date
- Provide vaccination records or proof of immunity against measles, mumps, rubella and varicella (chicken pox)
- Provide documentation of the Tuberculosis skin testing
