Who We Are

Medical Imaging at St. Joseph's Health Care London is a cornerstone service of the organization that focuses primarily on outpatient services in an ambulatory setting. Supporting St. Joseph's care programs, community and regional referrals, and acute care partners, St. Joseph's staff provide respectful, compassionate and excellent care to a large population in the region.

As an integrated sub-specialty based academic department, St. Joseph's Nuclear Medicine staff and providers are committed to providing excellent quality-driven patient care. The nuclear medicine department regularly collaborates with a variety of research partners to continually advance the field of imaging, improving patient care, and driving innovation in medical imaging and therapy. We offer a great work environment with an outstanding team and the opportunity for continued learning and growth.

Position Summary

We are seeking a skilled Nuclear Medicine Technologist to join our dynamic team. The ideal candidate will perform a variety of nuclear medicine procedures, utilizing state-of-the-art equipment and techniques to assist in the diagnosis and treatment of various medical conditions. Key responsibilities include: ensuring all procedures are performed according to established protocols and standards of practice and in a safe and compliant manner according to CNSC regulations; participating in various training programs and research studies; and contributing to an environment which supports clinical excellence and continuous learning. The Nuclear Medicine Technologist will work closely with physicians and other healthcare professionals to ensure accurate and timely imaging results.

Essential Qualifications

- Graduate of a recognized Nuclear Medicine program
- Current registration with the College of Medical Radiation and Imaging Technologists of Ontario with a specialty in Nuclear Medicine
- Knowledge of a Safety Culture in a Health Care Setting in compliance with the OHSA
- Capable of performing the full spectrum of Nuclear Medicine procedures requiring independent judgement with skill, ingenuity, and initiative
- Excellent interpersonal and communication skills to effectively liaise with internal and external customers
- Strong organizational skills
- Ability to work independently as well as on a team

Preferred Qualifications

- Registration with CAMRT
- Proficiency in French would be an asset

Teaching and Research

- St. Joseph's Health Care London through its affiliation with Western University and Fanshawe College is a leading research and teaching hospital. As an employee of St. Joseph's you will be expected to engage in role related teaching and research activities in addition to any of your clinical duties

Immunization Requirements

- Provide documentation you have received two doses of the Covid-19 vaccine (primary series, boosters and/or XBB) OR one dose of XBB vaccine at least 14 days prior to the start date.
- Provide vaccination records or proof of immunity against measles, mumps, rubella and varicella (chicken pox)
- Provide documentation of the Tuberculosis skin testing

Your interest in this opportunity is appreciated. Only those under consideration will be contacted.
