This position is currently assigned to Forensic Assessment Unit A3 however this is subject to change.

It is understood that the hours of work reflect the current scheduling arrangements and are subject to change as determined by the Employer.

The Forensic Psychiatry Program has adopted the Psychosocial Rehabilitation and Recovery Model as its overarching philosophical framework. This philosophy is built on a set of principles and values that emphasize client and family involvement in decision making, client choice, the provision of a range of services to meet treatment, rehabilitation and support needs, and a commitment from mental health services' professionals to achieving the best possible outcomes for clients based on their stated preferences, wishes, desires and life plans. As part of the forensic system, this must also be accomplished within the parameters defined by the Ontario Review Board within each patient's Disposition order. The Forensic Psychiatry Program is also highly invested in both education and research and has various connections with the University of Western Ontario.

Working in an interdisciplinary team, the successful candidate will provide nursing care to clients with severe and persistent mental illness.

New graduate nurses eligible to obtain their temporary or general class registration with the College of Nurses of Ontario are encouraged to apply. This is an exciting opportunity for a new graduate nurse looking to expand their nursing assessment, treatment, and rehabilitation skills in the field of Forensic Psychiatry. As part of a multidisciplinary team you will have the ability to develop your skills in a supportive environment.
