position

Quality Management & Clinical Decision Support

Posting Date: March 18, 2025

St. Joseph's Hospital - London, ON

Submission Deadline: March 27, 2025

Temporary Full Time

Wade Baillie, Human Resources

Non-Union

Salary Range: \$20.30 - \$20.30 /hour

****REPOSTED****

This temporary full-time position is anticipated to start on May 5, and extend until December 19, 2025, subject to the availability of work.

Quality Measurement & Clinical Decision Support (QM&CDS) provides leadership and expertise in the development of integrated analytics and methodologies for measurement to support quality and process improvement, patient safety, patient experience, and strategic plan initiatives. Primary sources of data managed by QM&CDS include the Patient Safety Reporting System, Resident Assessment Instruments, the National Rehabilitation Reporting System, and Workload Measurement System, as well as the provincial Case Costing System and Wait Time Information System (WTIS).

As a Decision Support Intern in QM&CDS, this role will work in a team environment with QM&CDS Consultants and Specialists. You will support data quality and audit priorities for QM&CDS-managed systems as well as test plans for system upgrades and enhancements. The successful applicant will participate in analytics development projects with other team members as well as regular analysis and report preparation and will also be involved in care experience survey processes.

You are creative and highly motivated and have excellent communication skills, both written and verbal.

Essential Qualifications

- Current student enrolled in a post-secondary Health Information Science or equivalent program
- Successful completion of course work in Health Informatics, Clinical Information Systems, Data Analysis, Database Concepts, Report Writing and Communications
- Understanding of hospital/health information systems
- Experience with data quality assessment
- Proficient with Microsoft Office (Word, Excel, and Access)
- Knowledge of report design and graphical representation of data
- Excellent organizational skill and an understanding of appropriate documentation
- Knowledge of processes to gather and analyze data and information requirements
- Knowledge of a Safety Culture in a Health Care Setting in compliance with the OHSA
- Ability to work independently and prioritize competing demands
- Ability to establish and maintain relationships with teams and peers, and work in an interdisciplinary team setting

Preferred Qualifications

- Current enrollment in the Bachelor of Applied Health Information Science, Conestoga College
- Experience with Power BI

Teaching and Research

- St Joseph's Health Care London through its affiliation with Western University and Fanshawe College is a leading

research and teaching hospital. As an employee of St Joseph's, you will be expected to engage in role related teaching and research activities in addition to any of your clinical duties

Immunization Requirements

- Provide vaccination records or proof of immunity against measles, mumps rubella, varicella (chicken pox), Hepatitis B, COVID-19 and influenza.
- Provide documentation of the Tuberculosis skin testing

Your interest in this opportunity is appreciated.
