

Clinical Informatics Specialist, Clinical Informatics - 2 positions	Posting #: 55144
Clinical Informatics	Posting Date: June 11, 2025
St. Joseph's Hospital - London, ON	Submission Deadline: July 01, 2025
Full Time	Jennifer Pasichnyk, Human Resources
Non-Union	Salary Range: \$49.02 - \$57.68 /hour

Information Technology Services provides service to both LHSC and SJHC. This position is a SJHC position, and the successful candidate will become a SJHC employee.

Reporting to the Manager, Clinical Informatics, the Clinical Informatics Specialist serves as the liaison between the hospital's clinical areas and the Clinical Informatics / Information Technology Services department. This includes participating and supporting the determination of the needs and requirements for clinical applications in acute and ambulatory healthcare settings. The Clinical Informatics Specialist will support and participate in the evaluation, selection, and implementation of automated clinical systems. This individual will work with staff and physicians to optimize adoption and standardization of clinical systems through education and training, workflow/process analysis, quality outcomes, and providing support in accordance with organizational goals.

Essential Qualifications

- Knowledge of a Safety Culture in a Health Care Setting in compliance with the OHSA
- Bachelor's degree in a health-related field
- Demonstrated understanding of technology and how it can be applied in a clinical environment
- Experience with established business application systems
- Excellent written and verbal communication skills with a commitment to strong customer service
- Demonstrated ability to research and assimilate a large quantity of diverse information
- Computer proficiency in MS Office Suite and email systems
- Experience or training using clinical documentation systems
- Proficient organizational and time management skills with the ability to effectively problem solve
- Min 3-5 years direct clinical experience

Preferred Qualifications

- Proficiency in French would be an asset
- Master's Degree in Clinical/Health Informatics preferred
- Current registration with applicable professional college preferred
- Experience with project leadership in a health care environment
- Min 3-5 years' experience with large scale IT implementation

Teaching and Research

- St Joseph's Health Care London through its affiliation with Western University and Fanshawe College is a leading research and teaching hospital. As an employee of St Joseph's, you will be expected to engage in role related teaching and research activities in addition to any of your clinical duties

Immunization Requirements

- Provide vaccination records or proof of immunity against measles, mumps rubella, varicella (chicken pox), Hepatitis B, COVID-19 and influenza.
- Provide documentation of the Tuberculosis skin testing

Your interest in this opportunity is appreciated.
