

Systems Analyst, Perioperative Services - 1 position	Posting #: 55389
Perioperative Services	Posting Date: August 06, 2025
St. Joseph's Hospital - London, ON	Submission Deadline: August 12, 2025
Regular Part Time	Stacy Kearns, Human Resources
Non-Union	Salary Range: \$37.77 - \$44.42 /hour

The Systems Analyst provides corporate and departmental support in the collection, analysis, reporting and utilization of data and information to support clinical decision making and quality improvement for Perioperative Services. This position will be responsible for the extraction and coordination of data from multiple internal and external sources and will be accountable for validating the integrity and completeness of all components of data. The successful candidate will work closely with the Perioperative staff, Finance, Health Records, Quality Measurement and Clinical Decision Support staff in the collection, analyzing and reporting of information as well as designing reports, identifying variances and gaps and making recommendations related to resource utilization. This role requires a strong background in data analysis, proficiency in healthcare data systems, and an understanding of clinical workflows within the perioperative setting. The ability to manage and interpret large datasets, coupled with strong communication skills, will be critical in ensuring that all stakeholders are aligned and equipped to make informed decisions that contribute to the success of Perioperative Services.

The successful candidate will work Mondays and Tuesdays from 07:00 to 15:00, with the flexibility to extend hours as needed to meet deadlines.

#### Essential Qualifications

- Post-secondary diploma in Health Information Management, Health Informatics, or related field
