#### \*\*\*REPOSTED\*\*\*

It is understood that the hours of work reflect the current scheduling arrangements and are subject to change, as determined by the employer.

The Air Conditioning and Refrigeration Mechanic reports to the Facilities Engineering Coordinator. In this role you will work with the Facilities Management Team to diagnose, maintain and repair refrigeration related equipment, including but not limited to split system units, air conditioning units, refrigerators, freezers, and water/ice machines. Responsibilities of this role may also include operation, inspection, repair and maintenance of general building equipment as it relates to Life Safety, Mechanical, Building Automation Systems (BAS), HVAC and all other associated building systems.

#### Essential Qualifications

- Current Certificate of Qualification as a Refrigeration & Air Conditioning Mechanic (313A) for the Province of Ontario
- Current Ozone Depletion Prevention Certificate
- Secondary (High) School Diploma
- Knowledge of a Safety Culture in a Health Care Setting in compliance with the OHSA
- Minimum three (3) years demonstrated related experience
- Demonstrated experience in a customer-oriented environment
- Demonstrated effective organizational skills
- Demonstrated effective collaborative, interpersonal, and communication skills
- Demonstrated ability to work effectively on a team as well as independently
- Successful completion of a Mechanical Comprehension Test
- Must be capable of meeting the physical demand required to perform the essential duties of the classification

#### Preferred Qualifications

- Previous work experience within a healthcare environment
- Gas Technician - G2 current certification

#### Teaching and Research

- St Joseph's Health Care London through its affiliation with Western University and Fanshawe College is a leading research and teaching hospital. As an employee of St Josephs, you will be expected to engage in role related teaching and research activities in addition to any of your clinical duties

#### Immunization Requirements

- Provide vaccination records or proof of immunity against measles, mumps rubella, varicella (chicken pox), Hepatitis B,

COVID-19 and influenza.

- Provide documentation of the Tuberculosis skin testing
