Parkwood Institute - Mental Health Care Building provides specialized mental health care to individuals living with mental illnesses on both an inpatient and outpatient basis. The Short Stay Unit offers crisis intervention, assessment, and stabilization for people with severe and persistent mental illness with a focus on short term treatment and collaborative care with family physicians and other community providers. Optimal length of stay in our program is 14 days. Using the principles of client centered care within the context of an interdisciplinary team approach, the successful candidate will provide care to clients with severe and persistent mental illness.

It is understood that the hours of work reflect the current scheduling arrangements and are subject to change as determined by the Employer.
