

Dietitian, Cardiac Rehabilitation and COPD - 1 position	Posting #: 55991
Cardiac Rehabilitation and COPD	Posting Date: December 16, 2025
St. Joseph's Hospital - London, ON	Submission Deadline: December 22, 2025
Casual Part Time	Michelle Robertson, Human Resources
OPSEU Paramed	Salary Range: \$41.68 - \$53.28 /hour

The St. Joseph's Health Care London Cardiac and COPD Rehabilitation and Secondary Prevention Programs are six-month programs for people with known heart disease and/or COPD. Patients work with a multidisciplinary team (kinesiologists, nurse practitioners, physicians, nurses, social workers and dietitians) to create and follow an individualized program, as well as group programming at St. Joseph's Health Care London. While our researchers focus on innovation and discovery, our interdisciplinary team of care providers and educators work to support our patients' goals and health care needs, providing a continuum of services to ensure optimal health and quality of life. Serving Southwestern Ontario, the cardiac and pulmonary Rehabilitation programs are teaching programs affiliated with Western University, the Lawson Research Institute and the Robarts Research Institute.

The Registered Dietitian works collaboratively with the inter-professional team to provide patient-centered evidenced based assessment, education and care plans for patients living with complex chronic disease. The dietitian will use skills in individual and group-based nutrition education to facilitate the provision of client-focused cardiac and pulmonary care.

Essential Qualifications

- Valid registration with the College of Dietitians of Ontario
- Knowledge of a Safety Culture in a Health Care Setting in compliance with the OHSA
- Understanding of the nutrition care process and model
- Demonstrated expertise in developing and implementing nutritional care plans
- Demonstrated knowledge of current evidence-based practice related to heart disease and COPD
- Knowledge of community resources and the ability to assist patients and families to navigate the health care system.
- Knowledge of education theory (including adult learning principles) and demonstrated experience in the development of teaching materials and the teaching and education of patients (and family/caregivers)
- Previous experience dealing with health promotion and illness prevention
- Demonstrated effective communication, collaborative and interpersonal skills
- Demonstrated expertise in critical thinking and clinical problem-solving skills
- Self-directed, strong organizational skills and ability to prioritize workload
- Demonstrated ability to effectively communicate with an interdisciplinary team, patients and/or residents

Preferred Qualifications

- Proficiency in French would be an asset
- Eligible for membership with Dietitians of Canada
- Certified Diabetes Educator
- Craving Change Certified
- Experience in public speaking and preparation of educational material
- Demonstrated computer experience, particularly with Outlook, computerized patient information systems, Microsoft Office Products (specifically PowerPoint)

Teaching and Research

- St. Joseph's Health Care London through its affiliation with Western University and Fanshawe College is a leading research and teaching hospital. As an employee of St. Joseph's, you will be expected to engage in role related teaching and research activities in addition to any of your clinical duties

Immunization Requirements

- Provide vaccination records or proof of immunity against measles, mumps rubella, varicella (chicken pox), Hepatitis B, COVID-19 and influenza.
- Provide documentation of the Tuberculosis skin testing

Your interest in this opportunity is appreciated.
