

Manager, Research Operations - Lawson - 1 position	Posting #: 56748
Lawson	Posting Date: June 05, 2026
St. Joseph's Hospital - London, ON	Submission Deadline: June 15, 2026
Temporary Full Time	Jennifer Pasichnyk, Human Resources
Non-Union	Salary Range: \$65.19 - \$76.69 /hour

This is a temporary full-time position anticipated to extend approximately until June 30, 2028, and is subject to the availability of work.

Lawson Research Institute, the health innovation arm of St. Joseph's Health Care London, is committed to making and sharing discoveries that improve lives locally and internationally. Every day, Lawson's 250-plus scientists work to transform imagination to innovation to patient impact. Lawson leads health care research.

This is an exciting opportunity to join a dynamic and highly engaged operations team that is eager to optimize and transform research in ways that enable growth and deliver meaningful local and global impact. At a time of significant restructuring, this temporary role offers the chance to help shape the future state of research operations, with potential for extension and permanence. Building on decades-long legacy of excellence, Lawson is now in a unique position to modernize its processes, structures, and systems to meet the challenges of tomorrow.

The Manager, Research Operations position is tasked with supporting the seamless and compliant execution of research activities while enhancing the efficiency and throughput of high-quality research at the assigned site. This role coordinates the effective utilization of resources and space, supports researchers by facilitating access to essential services, and collaborates with clinical leaders to integrate research with clinical care. Responsibilities encompass human resource management, ensuring adherence to safety standards, compliance with regulations, and overseeing budgetary and financial operations. Additionally, the Manager contributes to innovation and strategic planning, cultivates partnerships, and upholds the organization's academic mandate while implementing best practices to foster a productive and safe research environment.

Essential Qualifications

- Bachelor's degree in a health-related or science field, with progressive experience in research or health care (minimum 3 years) and demonstrated leadership experience (minimum 2 years).
- Comprehensive knowledge of research operations, including compliance, regulation, safety requirements, equipment, space, and resource coordination.
- Proven ability to lead, develop, and support high-performing teams while fostering a healthy, inclusive, and service-oriented work environment.
- Strong organizational, financial, analytical, and communication skills, with the ability to manage multiple priorities, solve problems, and deliver excellent customer-oriented service.
- A self-starter with sound judgment, emotional intelligence, and a demonstrated ability to lead change, quality improvement, and continuous growth in support of the organization's mission.
- Commitment and ability to act as a supervisor under OHSA, including maintaining research safety standards and handling confidential information with discretion.

Preferred Qualifications

- Masters level education in Science, Healthcare, Management or Business
- Proficiency in French would be an asset

Teaching and Research

- St. Joseph's Health Care London through its affiliation with Western University and Fanshawe College is a leading research and teaching hospital. As an employee of St. Joseph's, you will be expected to engage in role related teaching and research activities in addition to any of your clinical duties

Immunization Requirements

- Provide vaccination records or proof of immunity against measles, mumps, rubella, varicella (chicken pox), Hepatitis B, COVID-19 and influenza.
- Provide documentation of the Tuberculosis skin testing

Your interest in this opportunity is appreciated.
