Reporting to the Manager Contract Management, this position is responsible for contract and supplier management for the London and area Hospitals which HMMS services. The core responsibilities of this role are to onboard and manage the implementation of new contracts, ensuring contract compliance, and monitoring and management of supplier performance. This role directly impacts our ability to support hospitals in the provision of mission critical goods and services, under contract, with our vendor partners.

The individual in the role is expected to have in-depth understanding of our customer's contract requirements, providing advice and counsel when disputes in expected service levels arise and manage the overall performance of a vendor for a given contract. The Specialist is to contribute to and further develop the core and strategic activities of all departmental processes. The Specialist must be able to establish effective relationships with our customers, vendors, and internal stakeholders in keeping with our core values of Respect, Excellence, and Compassion.

Performance is monitored through a number of Key Performance Indicators related to Off-Contract Spend, and cost savings specific to their suppliers. Diligence in the management of documentation is critical.
