

Student, Facilities Engineering - 1 position	Posting #: 57161
Facilities Engineering	Posting Date: September 25, 2026
St. Joseph's Hospital - London, ON	Submission Deadline: October 01, 2026
Temporary Part Time	Andrew Harriman-Duke, Human Resources
Non-Union	Salary Range: \$17.40 - \$17.40 /hour

This temporary part-time position is expected to extend until April 30, 2027, and is subject to the availability of work.

The facilities management department at St. Joseph's Health Care London is an integrated team responsible for facilities project management, maintenance and operations, site utility usage, and biomedical engineering. Our core business hours for this role are 0800-1600 but work outside of these hours may be required for project implementation.

The facilities management department at St. Joseph's Health Care London offers a unique experience to learn about various aspects of healthcare facilities management and/or biomedical engineering. We are looking primarily for candidates in mechanical, electrical, civil or integrated engineering for which we can tailor the hands-on learning experience. Duties for this role will be broad so as to create a well-rounded learning experience for the individual. This role does not require the usage of a personal vehicle, but the individual may be required to go to any of our St. Joseph's Health Care sites - Primarily Parkwood Institute, and St. Joseph's Hospital.

Some duties would include, but not limited to:

Assist with equipment audits for facilities engineering and/or biomedical engineering managers
Update existing Archibus database with equipment information
Provide project support to facilities engineering/biomedical engineering managers
Support facilities planning team with engineering related projects and documentation

Essential Qualifications

- Successful completion of year two of study in a Canadian university program pursuing a bachelor's degree in mechanical, electrical, civil, or integrated engineering.
- Knowledge of a Safety Culture in a Health Care Setting in compliance with the OHSA
- Demonstrated effective organizational skills
- Demonstrated effective collaborative, interpersonal, and communication skills
- Demonstrated ability to work effectively on a team as well as independently

Preferred Qualifications

- Successful completion of year three of study in a Canadian university program pursuing a bachelor's degree in mechanical, electrical, civil, or integrated engineering.
- Experience with AutoCAD/Revit
- Previous work experience within a healthcare environment
- Proficiency in French is considered an asset

Teaching and Research

- St Joseph's Health Care London through its affiliation with Western University and Fanshawe College is a leading research and teaching hospital. As an employee of St Joseph's, you will be expected to engage in role related teaching and

research activities in addition to any of your clinical duties

Immunization Requirements

- Provide vaccination records or proof of immunity against measles, mumps rubella, varicella (chicken pox), Hepatitis B, COVID-19 and influenza. Provide documentation of the Tuberculosis skin testing

Your interest in this opportunity is appreciated.
